DRX-Plus Accident
Protection Plans

Let’s face it, productivity is paramount. When you’re on the job you need your equipment and your team to be working at maximum efficiency. You can’t afford interruptions, unplanned costs, or delays due to accidents. While the DRX-Plus Detector is designed for durability and long life, things happen in the field – and this is where Carestream DRX-Plus Accident Protection Insurance comes in.

CARESTREAM DRX Accident Protection Insurance is uniquely designed for the DRX-Plus Detector and can be added to your standard Carestream DRX Warranty. This optional insurance gets you a replacement detector and dramatically offsets cost related to detector replacement due to physical damage or accident.

Maximum Uptime.

Accident Protection Insurance for the DRX-Plus needs to be bought at the time of the original purchase and protects you for a full year against one catastrophic event. When an accident occurs, we will diagnose the issue and expedite a replacement detector to you through our global parts and service network. Our fast turnaround helps maximize equipment uptime and your ability to stay on the job! Maintaining continuous accident coverage on your Carestream DRX Detector minimizes your risk and protects your important investment. Ensure continuous coverage and the lowest available annual fee by purchasing Accident Protection when you purchase the DRX-Plus Detector.
