Manual notching machine

The Hoytom's manual notching machine is designed for test houses and laboratories, which are producing small batches of test pieces.

This machine cut Charpy and Izod 'V' and 'U' notches in pre-machined standard 10mm square.

The standard broach is used for carbon and low alloy steels. Broaches with a special coating are made for more resistant, harder or stainless steels.

Broach types

Broaches are not included with the notching machine.

Notch	Depth	HRC hardness
V	2 mm	< 42 or < (52 ^{°2})
U	5 mm	< 32 or < (42 ^{°2})
